

NeedTools

Branding Style Guide

Created for Global Reach & Modern UX

1. Brand Identity

The Concept

NeedTools is designed to be the ultimate hub for digital utilities. The brand must convey **Trust, Speed, and Simplicity**. For international appeal, the visual language is kept minimalist, removing any cultural barriers.

Logo Structure

The logo pairs a bold, geometric symbol (representing layers/tools) with a clean wordmark. The word "Need" is bold to signify urgency/demand, while "Tools" is lighter and blue.

2. Color Palette

The primary color is Trust Blue. The secondary colors are used to categorize tools, helping users visually navigate the platform.

Primary Blue

HEX: #3B82F6

Trust, Security, Main Action

Dark Mode Base

HEX: #0A0A0A

Sleek, Modern Background

Light Mode Base

HEX: #F9FAFB

Clean, Readable Area
